4. End-point assessment

The end-point assessment (EPA) for Team Leader/Supervisor contains 4 methods of assessment:

Multiple Choice Question Knowledge Test

Using a series of 16 scenario-based questions, apprentices are required to demonstrate their knowledge of leadership and management in relation to specific topics. This will be a 25 minute on-demand test. The score will be multiplied by 1.875 to get a final score out of 30.

Grade weighting - minimum 15 marks out of 30, and carrying 30% of the final grading.

Competency-based Interview

The Independent End-Point Assessor (IEPA) uses a structured series of questions to test the knowledge and application of learning relating to the modules identified in the assessment plan. This is a great opportunity to assess behaviours and soft skills while allowing apprentices to demonstrate their style. The interview will last for a maximum of 60 minutes.

Grade weighting - minimum 15 marks out of 30, and carrying 30% of the final grading.

Portfolio of Evidence

The apprentice carries out work defined by their employer, assembling a Portfolio of Evidence that demonstrates learning and development activities and their application in the workplace. This will include written, audio and video evidence that showcases their on-programme learning and achievements.

Grade weighting - minimum 10 marks out of 20, and carrying 20% of the final grading.

Professional Discussion relating to CPD activity

In this concluding assessment module, the IEPA leads a 20-30 minute discussion to uncover additional evidence of personal development activities and how this learning was applied to the role and workplace.

Grade weighting - minimum 10 marks out of 20, and carrying 20% of the final grading.
